## THE **i**IMAGE CONSULTING CO

The **image Consulting Co** was founded in 2006 by style and image expert Emmeline Stevens. Emmeline's career in fashion, lingerie and styling, plus her passion for building confidence in others, made a career in personal styling an obvious choice.

During 10 years in the styling industry, Emmeline has gained the knowledge and experience to help you become one of the best in the business. With an impressive portfolio from brand development to shoots, shows and events in addition to one-to-one client work - not to mention juggling life as a busy mother.

Emmeline takes great pride in sharing her passion for personal styling, and is a keen supporter of women in business, taking a professional yet personal approach to her work. That's why she feels now is the perfect time to pass on her skills to inspire and develop others to pursue their own career in the image industry.

Emmeline's three-step ethos is key to setting the tone for the course...

The intensive, fun five day course shared with other like minded people is designed to inspire and deliver the tools you need to set you on the path to a career as a personal stylist with an introduction to help you understand what, where, why and how before we proceed to:

- **Day 1:** Colour analysis: seasonal and tonal methods
- **Day 2:** Body shapes of all sizes and basic bra fitting
- **Day 3:** Wardrobe management and working in your clients personal space
- **Day 4:** Personal shopping, budget management, value for money, brands
- **Day 5:** Business development, sales, marketing, social media

Completing these five modules will certify you as a fully trained personal stylist. However, depending on your level of current expertise and skills, you may wish to choose just one or two modules...

## The 1 day course £400

Each module of our course is flexible to suit requirements of those already in business or those starting out. It might be easier for you to work around current commitments or finances to complete one or two modules at a time rather than doing it all within one week.

The one day course is designed for you to select one or more of the above modules that work for you and decide when you wish to study on the days in line with our 5 day course.

## Additional learning opportunities

You may also wish to further your studies to a higher level within the image industry with one of our advanced skills workshops. See page 11 for details.
