

Colour Analysis

INFORMATION SHEET

Colour analysis is the ideal way to help you understand the best colours that suit individual tones. By analysing a person's unique characteristics you are able to help them understand how to feel more confident in their clothes.

Wearing your ideal colours has been proven to help you feel more confident, radiant, youthful, vibrant and positive. Using the science of colour, combined with theories from various psychologists, philosophers, designers, artists and more we will guide you through the process of Colour Analysis from scratch.
